## But Party Split Threat Continues

### Macmillan Backed In Cabinet Talks

LONDON (AP)—Prime Minister Harold Macmillan rode through the second day of crucial Cabinet meetings over the Profumo scandal today with an outward show of Conservative unity. But signs grew that loyalty of key ministers was near the breaking point.

### Massive Search Continues for Negro's Killer

Tension Mounts In Jackson; Police, FBI Check-Out Leads

JACKSON, Miss. (AP) — As tension mounted in this troubled Southern city, police and federal agents continued a massive search today for the assassin of Negro leader Medgar W. Evers.

"We have some good leads," said Chief of Detectives M.B. Pierce.

Meanwhile, the widow of the slain man — her voice trembling with emotion — called on Negroes to continue their battle against racial discrimination.

Evers was gunned down in his driveway early Wednesday.

There were fears that the ambush slaying would touch off fresh racial strife in this Mississippi capital city of 145,000.

The Rev. A. Charles Jones, dean of Campbell College for Negroes here and one of the leaders in the integration movement, telegraphed President Kennedy that the "tragedy may provoke a violent explosion in this community which will bring additional disgrace and tarnish the American image before the people of the world."

Evers, 37, had been Mississippi field secretary for the National Association for the Advancement of Colored People for the past nine years.

Thirteen ministers and a church layman who gathered downtown for a "mourning march" Wednesday were arrested by police. They were later released without charge.

Later, 146 other Negroes were jailed when police broke up another attempted demonstration.

Late Wednesday night, a police car was hit by several soft drink bottles as it drove through the campus of Jackson State (Negro) College. Police Capt. Cecil Hathaway said the bottles had apparently been hurled from the top

### Third Negro To Enroll At Alabama U.

HUNTSVILLE, Ala. (AP) — A third Negro enrolls today in the University of Alabama system under protection of state police after Gov. George C. Wallace decided against a second doorway stand for segregation.

Authorities said they expected no trouble at the University Extension Center where the Negro, Dave Mack McGlathery, was to register.

Quiet prevailed at the Tuscaloosa campus Wednesday as two Negroes, Vivian Malone of Mobile and James A. Hood of Gadsden, attended their first classes.

They enrolled Tuesday behind federalized Alabama National Guardsmen after the governor briefly stood off federal officials seeking to get the students registered.

Wallace informed the university president, Dr. Frank A. Rose, by telegram Wednesday night that he would not be present at Huntsville today.

Rumors or resignations by at least four ministers were partly dispelled when two of them issued flat denials. The other two kept their counsel.

The Labor party's "shadow" foreign secretary, Patrick Gordon Walker, returned from a trip to Moscow and declared the vice scandal involving former War Minister John A. Profumo, required the prime minister's resignation.

"I think perhaps this is the last service he could do his country," Walker said.

His remarks set the tone for Labor's attack in a full-scale parliamentary debate Monday.

Rumblings from the Cabinet meeting centered on Health Minister Enoch Powell, who steadfastly refused to deny the report he would quit over the moral issue of scandal in the private lives of men in high position.

The Evening Standard said Powell is on the point of resignation, and added this could start a landslide against the prime minister.

Reports spread through Whitehall that other men high in the party councils have been indulging in high life as was the disgraced Profumo.

Macmillan's problem in the face of these rumors was to know if he could again be the victim of a "breath-taking betrayal" as he described Profumo's conduct.

The threats of resignations, the denials, the rumblings even from the rank and file of the party, created an atmosphere of tension and uncertainty as dynamic as the Suez crisis which toppled Anthony Eden and put Macmillan into power.

Rumors had spread that four ministers would quit over the moral aspects of the Profumo case.

### 2 Salem Boys, Farmer Hurt In Mishaps

Two Salem youths and an elderly Fairfield Township farmer were hurt in two single-vehicle traffic mishaps in Columbiana County Wednesday.

Neil R. Stamp, 16, of RD 2, Salem, and Bobby Knepper, 15, of 1708 Cleveland Ave. were treated at Salem City Hospital and released after their car plunged into an embankment at 4:10 p.m. Stamp, the driver, received a small cut of the upper lip, and Knepper, his passenger, lacerations of the lip.

The Lisbon post of the State Highway Patrol reported Stamp was driving south on Township Rd. 765, one mile south of Alternate Route 14 when he drove left of center and plowed into a ditch and embankment.

While hauling a load of hay, Samuel Ward, 78, of RD 2, Columbiana, lost control of his truck when a tire blew out at 12:40 p.m. on Route 30, about four miles west of Lisbon.

The truck veered off the left side of the road and overturned, spilling the cargo of hay. Ward suffered abrasions of both hands, but did not require treatment.

### Ticketed Motorist Decides to Wait

Harold (Doc) Daugherty of 1108 W. Perry St. got a police ticket for overtime parking yesterday but he says he's not going to pay the fine until the current dispute over who owns the city's meters is settled.

"It's not the \$1 fine I'm concerned about," he said, "but the principle of the thing. I don't know whether I'm paying the city or a parking meter firm and, perhaps, illegally."

Common Pleas Judge Joel H. Sharp has not returned his decision in the mandamus action brought by Solicitor Thomas Coe on behalf of the city against City Auditor Helen Coyne after Mrs. Coyne refused to pay the \$12,482 bill for 170 meters which she contends Mayor Dean Cranmer bought without proper authorization of City Council.

# Betancourt Orders Arrest Of 400,000 Communists

## Legislature To Adjourn On June 27

Board of Regents Compromise OK'd By Joint Group

COLUMBUS, Ohio (AP)—Both lawmakers and compromises were beginning to fall into line today, because June 27 is the final working day of the 105th General Assembly, period.

Within hours of the announcement by legislative leaders that the working session will end two weeks from today:

—A Senate-House Conference Committee, after more than a month of deliberations, suddenly reached a compromise on the controversial bill to create a board of regents to supervise higher education in Ohio generally and in the six state universities particularly.

—The House Government Operations Committee reported irreconcilable differences in a subcommittee which studied the so-called fair-housing bill. It tossed both the original bill and a proposed substitute back to the full committee without recommendation.

—The House Industry and Labor Committee reported back to the House floor a somewhat slimmed-down version of a Senate-approved bill to cut workmen's compensation benefits down to size.

—The Senate Commerce Committee was reported ready to release a House-approved bill to restore the solvency of the unemployment compensation fund while limiting some benefit provisions.

The House, with 69 votes needed to pass a bill, came up with a narrow 77-48 margin in favor of a measure to permit local districts to levy income taxes to finance the costs of limited higher education.

By an even narrower constitutional margin, the House passed 71-56, and sent to the Senate a bill to permit the state to rake into its treasury all money in bank and savings and loan accounts and other securities which have been inactive for 10 years or longer.

The proposed law does contain a provision for giving back any money claimed by owners of bank accounts or other securities. The proposal was approved only after a long Republican caucus in which, reportedly, the bill was made a policy measure.

## 2 Sentenced for Meltzer Robbery

Robert Leland Dickey, 20, and Frank Moretta, 20, both of Canton, were sentenced to 1-25 years in the Ohio State Penitentiary and reformatory respectively, by Judge Joel H. Sharp, Wednesday for the Jan. 17 robbery of Victor Carreon, night clerk at the Metzger Hotel.

Both had pleaded guilty and requested probation which was denied by the court because of their past records.

George W. Sims, 34, of Wells-ville, was sentenced to 1-5 years in the penitentiary by Judge Raymond S. Buzzard for burglary of the Super Food Store in Wells-ville Jan. 27. He pleaded guilty after John R. Reed, 32, also of Wells-ville, was found guilty of the same offense by a jury.

## School Survey Team Awaited

Michigan State Group Due June 24

A committee from Michigan State University will be in Salem June 24-27 to survey the public school system and study its future needs and financial operation. Supt. of Schools Paul E. Smith told the Citizens Committee of Salem City Schools Tuesday evening.

As a preparation for the study of the proposed building expansion program three sub-committees were established, one to deal with financial problems, one to deal with curriculum and one to deal with building facilities.

Rev. R. D. Freseman, chairman, presided at the meeting held in the student lounge at the Senior High School.

The committee was recently constituted at the request of the Board of Education. Board President Orein Narstad said at that time: "The purpose of the group was to serve as a door to better understanding between the citizens of Salem and their schools."

He further pointed out that it was the hope of the Board that this committee would be an opportunity for interested citizens to study intensively and discuss meaningfully their aspirations for the Salem schools. He said that "though in the final analysis all decisions on policy are the responsibility of the duly elected Board of Education, the Board is aware of the fact that they can serve only within the financial discretion entrusted to them by the citizens of Salem."

Members of the committee are: James G. Aldom, Robert Bartholomew, W. F. Brahm, Lester Brantingham, Richard Cobourn, E. S. Dawson, Mrs. A. P. Falkenstein, Mrs. G. E. Farrington, Atty. A. L. Fitch, Rev. Richard Freseman, James Gow, Elliott Hansell, Mrs. Richard Herron, Peter C. Johnson, Mrs. John King, Guy Mauro, Mrs. Helen Myers, Donald H. Pohl, Louis Raymond, David Shoep, Ralph B. Smith, William Bailey, Dr. Gene Shafer, Walter Deming and James Wilson, Jr.

The last meeting dealt with certain questions raised at a previous meeting. These questions concerned the cost of the telephone bill for the school system. The telephone program of the schools was described by Darrel Fadely, assistant superintendent, who explained the costs and the necessity of the phones in the

## Adopt President's 5-Point Program

## Mayors Back JFK On Racial Plans

HONOLULU (AP)—The nations mayors backed President Kennedy's plea for racial harmony by adopting Wednesday a five-point program suggested by him — then added a sixth point themselves.

But some opponents said later they considered Kennedy's proposal too liberal.

An equal opportunities resolution was one of 28 proposals approved in a package at the final

## E. Liverpool Boy Still In Spelling Finals

WASHINGTON, D.C. (Special)—An East Liverpool youth representing Columbiana County and the Canton Repository remained among the nation's spelling elite as the National Bee moved into its final rounds today at the Mayflower Hotel here.

Gary Barringer, an eighth-grader at Westgate Junior High School was one of 21 still remaining in the competition after 14 rounds had been completed.

Sixty-nine spelling champions from all parts of the United States kicked off the contest Wednesday, with 28 remaining after Wednesday's competition.

Young Barringer dusted off four more words this morning to continue his battle for the crown. The spell-down will continue today until the champion is decided.

Wednesday, Gary successfully spelled in order "scheme, desperately, austere, sapphire, wantonness, conical, mollify, nutritious, katydid and fluffiness."

Today he moved through "nephritis, seine, masseuse and milliamperes."

Four Ohio boys remained in the bee after Wednesday's firings. In addition to Gary, they are Mike Hendricks of Portsmouth, Danny Luce of Youngstown and Gregg Richardson of Cincinnati.

## Armory Probe Halted by FBI

4 Nabbed In Entry Here Keep 'Mum'

The four men who broke into the U.S. Army Reserve Center at 811 Southeast Blvd. and were captured by Salem police and members of the Columbiana County sheriff's office Tuesday night, languished today in the Salem city jail, their immediate future in question.

It is expected they will soon face formal charges of breaking and entering and will be bound over to the Grand Jury.

Edward E. Hargett, special agent in charge of the Cleveland division, Federal Bureau of Investigation, has informed Salem authorities that the F.B.I. contemplates no further investigation of the case at this time. A federal agent spent several hours Wednesday investigating the entry.

A possibility existed that the entry would become a matter for the F.B.I. because the Armory, although a privately owned building, stores federal government property.

Wednesday's F.B.I. probe revealed that no federal government property was stolen from the Armory, and only negligible damage, a broken lock on a fence, was inflicted.

## Junk Yard Bill Expected To Pass

By Salem News Correspondent  
COLUMBUS — Sen. Edmund A. Sargus' junk yard regulation bill was beefed up and recommended for passage Wednesday night by the house government operations committee.

The bill originally called for licensing only those auto junk yards established or expanded outside of municipalities after Jan. 1, 1964. The committee adopted an amendment that would bring all existing rural auto junk yards under the bill by Jan. 1, 1965.

Another amendment approved last night exempts from the bill establishments that impound autos for resale, provided that no car is stored more than 90 days. The bill, approved by the Senate April 8, provides that a junk yard could not operate within 1,000 feet of a state or county highway or within 300 feet of a township road unless it were fenced or naturally obscured.

## Move Follows Attempted Assassination

Order Is Leader's Toughest Step Yet Against Subversives

CARACAS, Venezuela (AP) — President Romulo Betancourt ordered the arrest of Venezuela's estimated 400,000 Communists and pro-Castro extremists Wednesday night following his escape from another assassination attempt.

Betancourt said three Communist terrorists plotted to assassinate him Wednesday with a time bomb at the Roman Catholic archbishop's palace in Ciudad Bolivar, a river port 275 miles south-east of Caracas.

The president told a national radio audience that police nabbed two of the terrorists as they entered the palace with three sticks of dynamite and a timing device. The third plotter got away.

"Society cannot be subject to continued risk to property and life by a group of pyromaniacs and terrorists," Betancourt said in ordering Interior Minister Carlos Andres Perez, to start an immediate nationwide roundup of members of the already-banned Communist and MIR parties. The MIR, or Movement of the Revolutionary Left, is a pro-Castro revolutionary movement.

The order was the toughest Betancourt has issued against subversives who began moving against him shortly after he took office in 1959. The next election is scheduled for November. The president has banned Communists from the election.

He has survived three previous known plots against his life and two revolts against his government. It is believed there were several other assassination attempts that never were announced.

Betancourt, noting that the government cannot hold anyone without charges for more than 30 days vowed that every Communist will be jailed again as soon as released. Such 30-day periods of detention could go on indefinitely.

The president, a moderate leftist, said he ordered the arrests because the legislature was taken

## Judge Buzzard Endorsed by GOP Group

The Columbiana County Republican Executive Committee, at a meeting Wednesday night in Lisbon Village Hall, gave its endorsement to the vacancy of the Sev. Raymond S. Buzzard for appointment to the vacancy on the Seventh District Court of Appeals created by the death of Judge John L. Donahue of Youngstown June 5.

It was the second endorsement of the East Liverpool jurist in as many days. He won the support of the Columbiana County Bar Association Tuesday.

Atty. Charles A. Pike of Lisbon, chairman of the GOP committee, immediately telegraphed word of the action to Gov. James A. Rhodes, who will make an appointment to fill the vacancy.

The interim appointee will serve until the next general election for the post in November 1964. The unexpired term runs until February 1965.

The district covers 13 counties stretching from Lake Erie to the Ohio River. Others on the bench are Judge Paul W. Brown of Youngstown and Judge James G. France of Ravenna.

The GOP, and possibly the Democratic Committee, in the 12 other counties are expected to make their own recommendations to Gov. Rhodes.

# Cooper's Space 'Diary' Is Released to Public

EDITOR'S NOTE — The Mercury program is dead. Astronaut L. Gordon Cooper Jr. was the last man to fly the pioneer Mercury spacecraft. His 22-orbit record will likely stand for two years as the U.S. space endurance mark. Now the space agency has released the inboard tape recording of the last Mercury mission. The following story is an abstract of this space diary—Cooper's own words as he saw it and told it while he rode alone in the heavens.

By JOHN BARBOUR  
HOUSTON Tex. AP) — As you'd expect of a quiet man thrust suddenly into the focus of the world's eye, Astronaut L. Gordon Cooper Jr. told of his space adventure best to himself and his diary.

That diary — tape recordings he made on his 22 rapid-fire days and nights in space — was released today by the National Aeronautics and Space Administration.

It is a graphic account of a man alone in his space cabin on what has become the last flight of the pioneer Mercury spacecraft—and probably the last long-term flight of an American for almost two years.

There is no assurance that the transcript is complete. Parts of the transcription were garbled. Parts may have been deleted for security reasons. And once the

troubles that endangered the Cooper flight showed up he apparently gave up his private tape recording.

Conspicuous by its absence is any description of the remarkable details Major Cooper said he saw of a truck, a train and other signs of life in the high Himalayas, including part of Red China. But in the privacy of his space cabin aside from that, Cooper—seems finally relaxed and alone with the heavens, despite a apparent initial overawakeness he was being tape recorded. Let the diary tell it:

"Well (clears throat) first night side and I have a bright blue band. A thick, diffused band of blue color — the sun is spread out very widely. It's settling now. And there it goes. A very bright blue band all the way around the earth."

With less than an hour in space, Cooper reported to his diary:

"And I have the haze layer that Wally Schirra, (a fellow astronaut) was talking about. I can see the stars down in it. And it is — up and around the earth — to a number of degrees... I can see the stars above it. I can see the stars down in it."

Cooper was constantly pulled out of his soliloquy by radio contact from the ground as he came within range of stations under his flight path. But then he returned to his diary:

"Ha-ha. And now at this time... I'm observing John's (Glenn's) fireflies. Drifting away from me. I can observe them, appear to be departing from the spacecraft and drifting out to the rear. I then can see some of them a considerable distance to the rear..."

The changes on the earth below contrasted sharply with the steady predictable world of space. One minute Cooper was reporting:

"Coming in over the coast of Africa. It's very clear here. No clouds. No haze. I'll try and snap some pictures of the Atlas Mountains... It's very dry, very clear over Africa. We're drifting window down, ideal attitude."

Half an hour later — over the south Indian Ocean — Cooper reported:

"I am now drifting on the night side. I have the moon in sight. I'm upside down. I'm observing lightning flashes from considerable-size thunderstorms that are below me. These create static in the radio every time the lightning flashes down there."

He also had troubles: "I'm eating a pot roast of beef. I've had considerable difficulty getting the water in it (dehydrated food in a plastic envelope) from this water device on the McDonnell water tank. I spilled water all over my hands, and all over the cockpit here trying to get some in it. I have succeeded in getting about half of it dampened and am proceeding to eat."

"I am washing my face with a damp rag now. Certainly feels good..."

"It is rather a strange feeling to be able to place objects out into the—into the cabin and let go of them and they'll stay in relatively their same position. This is worrisome as well as an odd sensation, handy sometime, but ah..."

The only close-up description of land in the diary is this one:

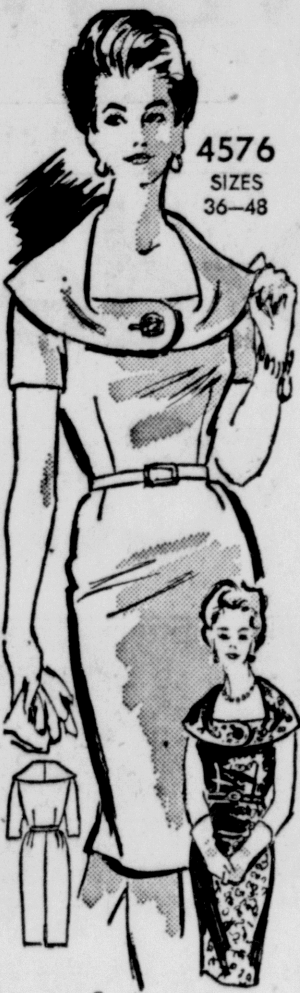

"I'm right over Africa. (Time passes) I can see roads, and rivers, and some small towns, down here on the ground. Small villages or towns, can almost make out the individual houses."

## Words Only Small Part of Solution to Racial Problem

WASHINGTON (AP) — Events proved what President Kennedy acknowledged in his talk to the nation: that words are only a small part of the solution to the racial struggle.

Within 24 hours after he appealed for the support of all citizens in trying to end discrimination against Negroes, this happened:

A Negro leader was shot dead in Mississippi, three white men were wounded and two Negroes

### AP News Analysis

stoned in street fighting in Maryland, and Southern Democrats in Congress announced defiance to Kennedy's civil rights proposals. Last September violence came even faster when Kennedy asked nation-wide for peace in race relations.

That time, in the very midst of his request that James H. Meredith, a Negro, be quietly enrolled in the University of Mississippi, there was rioting on the campus against U. S. marshals and two men were killed.

The lesson seems plain from the events after Kennedy's two appeals to reason:

The search for equal rights for

Negroes, even though they're entitled to them under the Constitution, will be long and probably bloody unless some great racial disaster, like a huge riot, shocks the nation into truly united action.

If that happens it will be a tragic commentary on America's inability to find through reason the long delayed solution.

Kennedy made it clear in his address to the nation Tuesday night that he talked of the "domestic crisis" in the nation now and about the threat of violence and the threat to lives.

Negroes, afraid for almost 100 years to act on their own in protest in the white-dominated world of the South, have discovered that when they act together, and in masses, they must be listened to. What may come out of this new and sudden realization of strength is unpredictable. For when they see one of their nonviolent leaders murdered, as in Mississippi, the other nonviolent leaders may be hurled aside for more direct action.

Yet, the Southern Democratic senators in Congress sound now as if this were back in the days of the 1940s when Negroes were still unsure and unorganized and offered no danger to the Southern whites determined to keep segregation.

Wednesday, before Kennedy even sent his new civil rights proposals to Congress, 18 Southern senators met and then their leader, Richard B. Russell of Georgia, had some words to say.

He pledged a powerful Southern Democratic fight — meaning, of course, a filibuster—against Kennedy's civil rights proposals although the administration apparently hasn't finished drawing them up.

Kennedy, through his whole ad-

ministration up to now, has tried to keep the Southern Democrats pacified. If they didn't get mad at him, they could be helpful on other legislation besides civil rights.

## Politics And Segregation

President Kennedy, a professional politician, knows the problem of civil rights for Negroes in this country ultimately must be solved by political means.

Many things can help a political solution—individual morality, group morality, education, persuasion, prayer. But until the Negro has an unquestioned right to vote and uses his vote to get what he needs, he will be a fractional citizen, as far as his rights are concerned.

This situation is not peculiar to Negroes. It is peculiar to representative government. Southern Negroes are not represented. They are counted as electors for purposes of apportioning seats in Congress, but they have been and still are barred in whole or in part from voting.

Their lot never can be measurably bettered until they elect executives, legislators and judges. This has been the source of all the progress they have made in Northern states. It is the only possible source of progress in Southern states.

THEREFORE, until President Kennedy, a professional politician and official spokesman for the Democratic party, gets down to cases on his party's part in withholding first-class citizenship from many Southern Negroes, his adjurations and impositions to businessmen, professional people, educators, ministers, mayors and others to give Negroes their constitutional rights are only half-hearted.

It does no good for him to shift and scatter responsibility all over the place when it belongs in one place — his own party's segregationism.

The Southern wing of the Democratic party piles up the seniority that gives its mem-

bers key posts in Congress, by virtue of a one-party system based on repression of Negro voters.

President Kennedy knows Southern filibusters can and will tie him in knots on civil rights. He knows Southern racists can and will tie the party in knots if he annoys them unduly.

He knows the most ticklish problem of his political career is this thing of riding two horses at once and that even Vice President Johnson for all his skill in lining up the Southern vote in 1960 cannot solve it for him.

### THE DEVOUT have prayed.

Americans with sensitive social consciences have implored and beseeched.

Citizens of good will in all parts of the country, including the Solid South, have expressed shock and disappointment over the adamant refusal of Southern Democratic politicians to budge from segregationism.

But there is only one way the American Negro can break down the barricade erected against him — the way he has broken it down before — through votes.

Only politics can give him what he wants, because what he wants is a full say in government, and government is politics.

As long as politics and government in segregation states are monopolized by segregation Democrats and as long as these Democrats enjoy full standing and respectability in the national Democratic party, there is no point in thinking a Democratic president is going to do more than deplore the existence of a problem he and his party never have solved because if they tried too hard they would shatter the coalition that keeps them in power.

# Alabama U. Case Parallels Little Rock Incident

By DAVID LAWRENCE

President Kennedy on Tuesday took the same risk that his predecessor did in ordering federal troops to compel the admission of students to a public educational institution. Was the Constitution violated by the chief executive himself?

The same laws which were cited by the Eisenhower administration in connection

with Little Rock were given as authority by President Kennedy. This does not mean that either incident was in conformity with the Constitution, or that some day the Supreme Court of the United States will not decide that the Constitution was actually violated in both instances.

Those sections of the law now being used as a basis for presidential action were passed nearly 100 years ago during or just after the war between the states. They refer to the enforcement of execution of "laws of the United States," but neither at Little Rock on Sept. 24, 1957, nor

at Tuscaloosa this week were there any specific laws involved that deal with desegregation of public educational institutions.

One provision cited relates only in general terms to "unlawful obstructions" which may make it "impracticable to enforce the laws of the United States in any state or territory by the ordinary course of judicial proceedings."

Another provision authorizes the president to use troops if an insurrection or conspiracy occurs which "impedes the course of justice" under the laws of the United States.

CONGRESS, however, on Sept. 9, 1957, had specifically repealed those sections of the then existing law which had authorized the president to employ land or naval forces to aid in the execution of judicial processes.

Congress, moreover, had explicitly enjoined the president and everybody else from using the military forces in any way to execute the laws unless specifically authorized to do so by the Constitution or an act of Congress. In other words, Congress has prohibited the use of any part of the military forces as a "posse comitatus" unless Congress says so.

This leaves the executive branch of the government with no power to secure the enforcement of court orders by military force. It means that U.S. marshals can be used to arrest anyone who violates a court order. Such a person can be brought to trial and properly punished.

But in the case of Little Rock, U.S. marshals were not brought into the picture. They were introduced at Oxford, Miss.—as also were federal troops—but the argument used in defense of such a course was that an unlawful assemblage had occurred and disorder had prevailed inside the State of Mississippi which the governor allegedly refused to restrain.

Gov. Wallace in his own proclamation stated that the Constitution of the United States and the 10th Amendment reserved to the states, respectively, or to the people, those powers not delegated to the United States nor prohibited to the states, and that he believes the operation of the public-school system "is a power reserved to the State of Alabama under the Constitution of the United States and particularly the 10th Amendment."

There are several new issues arising in the Alabama case which can only be resolved by a decision of the Supreme Court of the United States.

If this is unfavorable to the State of Alabama and others who believe that there was a deviation from the Constitution as applied by the Supreme Court, then the only recourse is an amendment to the Constitution in the manner prescribed in the document itself.

## Even Liz Never Had It So Good

## German Union To Hear JFK

By VICTOR RIESEL

On the morning of June 26, a band of strange men will move quietly into the gracious grand hall and corridors of Berlin's Kongress Halle, almost most within sight of the concrete wall woven betwixt the pillars of the Brandenburg Gate.

There will be a convention of the construction workers underway. But the newcomers will not be delegates. They will be the American Secret Service—President Kennedy's bodyguard.

He will speak there that morning. He has chosen a union gathering for one of the few public speeches he will make in all of free Germany.

In the audience of building and construction workers will be some of those who stirred the rebellion on Stalin Alley back on June 17, 1953. They jeered at the East German Communist police. They spat at Russian guns and tanks and they burned Soviet flags.

Without some of the national leaders of the American Federation of Labor there might not have been any free West Berlin today. This story has not been told in our country.

Back in 1947 just before the Communist blockade forced the United States into history's greatest freight service—the airlift—all of Berlin labor was in one labor union federation. The Communists controlled much of it.

They had caches of real money. They had newsprint, spies, musclemen, offices, cars, gasoline, cigarettes, chocolate, food, apartments, typewriters. Anti-Communist labor had nothing but guts.

Stalin's tactics were obvious. Blockade the city and use the labor movement to sabotage American-French-British forces from inside. Call a general strike if we attempted to fly in supplies.

SUCH A STOPPAGE would have shut the factories, paralyzed transport, clogged Tempelhof airport, because the airborne supplies would not be moved and distributed. The city would starve and freeze and turn to the Soviets by choosing a Communist government to relieve the siege.

So thought Herr Stalin. But just about that time the AFL sent in some of its people, including one unfeeling chap by name of Irving Brown. The anti-Communist unions got some paraphernalia, money, food and much encouragement.

They split from the Communist-infested labor organization and set up the UGO—Independent Union Organization. They fought. They grew.

There was no general strike during the great airlift. Then they began beating back the Communists.

Sometime after the roads and the canals were opened, the UGO

joined the DGB—the anti-Communist German Labor Federation, a large part of which is the Industrial Union of Building and Construction Workers, whose convention President Kennedy will address.

They know the pain of the steel of the Communist apparatus. That is why the Communists' distracting Congress will distract them not at all. They are builders with one thought—rip down the wall.

COMMUNIST propagandists will blanket all of Berlin, and Germany, with radio and television broadcasts reporting great strides and wonders of life beyond the fringe. But they will get less out of it than from the sale of a second hand statue of Stalin. Berlin's workers know how much they owe the American Federation of Labor as well as the White House.

## What About Comrade Ivanov?

It has been spelled out for us spectators of the international set that the critical question in the perfume scandal is whether the former war minister might have been blackmailed by the Soviet naval officer with whom he was sharing a mistress.

In currently inexact accounts of the lady's oddly assorted group of pursuers (the war minister and the Soviet officer were only

## Old Glory

Flag Day, tomorrow, is being proclaimed by patriotic, civic and fraternal organizations in Salem and elsewhere across the breadth of the land.

These organizations and the many individuals who belong are conscious of the fact that the American flag, often referred to as Old Glory, born amid the first flames of our nation's fight for freedom, is the symbol of a republic that has grown from 13 colonies to 50 sovereign states.

Tomorrow is a time to reflect on the meaning of the Stars and Stripes, the principles of truth, justice and charity for which it stands. Men have followed our flag into battle and died; that you and I might live.

If you are not thrilled tomorrow by the fluttering banner, your own patriotism is on a dangerous ebb tide.

## Fast Police Work

Four men breaking into a United States armory, ostensibly to steal rifles and ammunition obviously are up to no good, so when alerted Salem police and county deputy sheriffs surrounded the local Army Reserve Center Wednesday and arrested the surprised quartet, it constituted a bit of good police work. State Patrol also helped.

They and the interested citizen who provided the "tip" are to be congratulated. The roundup may have prevented some incident more serious later on.

## Cotton Corners

By Truman Twill

Dear Nephew: We enjoyed your recent letter, in which you expressed gratitude for the privilege of growing up in a place where race and nationality hatreds and religious prejudices were minimized by friendship.

When you were a kid, we hoped this would have a favorable effect on the way you felt. It is gratifying to know you are still aware of it after such a long time.

But isn't it important that after a long time your aunt and I are still aware of something that made no impression on you at a tender age. There was no absence of potential trouble in our sheltered, friendly community.

We remember attempts of the Ku Klux Klan to fan hatred, prejudice and fear. We remember bitter battles between religious factions sometimes in the same churches.

You yourself can remember what happened when the first Negroes appeared on football and basketball teams. You can remember that things weren't easy for the first Jewish families here. And before that, though we do not go back that far, things weren't easy for the first Catholics in this area.

The difference between the way it turned out here and the way it turned out some other places is that people here weren't afraid. During World War I there was hysteria about people with German names and friends of ours were held up to suspicion and punished for being Japanese in World War II.

But these people were friends of ours. Friendship prevailed over fear. You make all kinds of friends in a place like this.

two of a pack) it is impossible to know how much each pursuer knew about the other. The supposition that the war minister and the Russian both knew of the existence of the other has not been pinned down.

Until it has been pinned down, it would seem that the Russian, Capt. Eugene Ivanov, may be as unhappy about the scandal as anyone else. He has gone home to Russia.

The supposition that he went home with his dispatch case full of high-level secrets is far-fetched, under the circumstances. He may have gone home with his career in danger because as an intelligence agent he missed the chance of a spy's lifetime.

There may be men in the Kremlin who will take a dark view of their agent's life of fun and frolic in carefree London. Where did the man think he was—Paris? Who'd he think he was—a movie actor.

## Good Recommendation

It is a tribute to the personal qualifications of Common Pleas Judge Raymond S. Buzzard that the Columbiana County Bar Association has endorsed him for appointment to the vacancy on the Seventh District Court of Appeals.

The vacancy was created by the untimely death last week of 52-year-old Judge John L. Donahue of Youngstown.

Judge Buzzard measures up fully to the support given him by the Bar Association. Although he is serving only his second term as a common pleas judge, he has been a lawyer for 27 years, during which time he gained the respect of the bench and bar as a trial lawyer. He has established a reputation as an able judge.

He is honest, industrious, capable and efficient and Gov. James Rhodes could make no better choice than to appoint Raymond Buzzard to the appellate court vacancy. The Republican party already has promised its support.

Your friendships are universal, you might say.

It's impossible to get red-necked in the abstract about people you know personally. Even if you don't like them, you would feel silly working yourself into a screaming rage against someone you can call by his first name.

Our Negro friends do not have to ask for their rights here. They earned them generations ago and have enjoyed them ever since.

If an environment like this made you grateful, we're glad you had the chance to grow up here instead of overcrowded cities where you would have fallen into habits of hatred.

We always have felt that cities were unnatural places for children; the only adults were mentally equipped to cope with close contact existence. And, of course, pressures are most severe among the people with the least means of coping with them.

It is not that the pressures cease to exist in places like Cotton Corners. It is only that they are not overwhelming. It is not a one-sided thing any more. There can be action and counteraction.

Reason can offset hysteria. Logic can neutralize fear.

There is time to think twice.

We're glad you grew up here. We're glad you are still grateful for a natural environment—that you were not forced to be afraid of your fellowman. Please see to it that your own children have the same advantage and if everybody does likewise we'll be able to point with pride to the human race in another thousand years or so.

## History Today

Today's highlight in history: On this date in 1776, Congress appointed John Adams, Roger Sherman, Benjamin Harrison, James Wilson and John Rutledge commissioners of the Board of War. It was the start to what now is the War Department.

On this date In 1786, the commander of the U.S. Army at the start of the Civil War, Winfield Scott, was born near Petersburg, Va.

In 1917, Gen. John J. Pershing and his staff reached Paris.

In 1927, the American flag was first displayed from the right hand of the Statue of Liberty in honor of an individual. It was flown for Charles A. Lindbergh after his Atlantic flight.

In 1948, Babe Ruth was honored and his uniform—number three—was permanently retired.

In 1956, the U.S. Army adopted an official flag—after seven major wars and 145 campaigns.

Ten years ago... The United Presbyterian Church's General Assembly approved preliminary plans for merging with the Northern and Southern Presbyterian Churches in the United States.

# Ann Landers

## ANSWERS YOUR PROBLEMS

Dear Ann Landers Something happened today that has made me thoroughly ashamed.

Today was the day I decided to give the library a top-to-bottom cleaning and polishing. This meant taking all the books off the shelves. I ran across three books which I had "borrowed."

One of these books was personally autographed by the author and

I promised faithfully to return it within the week. That was last summer.

Then I go to thinking of all the books I had loaned to friends who had promised to return them—and never did.

Millions of people read your column, Ann, and I'll bet thousands who are reading these words have some borrowed books in their

shelves. Will you print this letter and proclaim today "Return Borrowed Book Day"? Thank you.—DEE TROIT.

Dear Dee Troit: Be it known that today, June 13, 1963 is proclaimed to be "Return Borrowed Book Day" in the United States, Canada and all foreign countries in which this column appears.

And thank you for reminding me. I'd better return a couple of books myself.

## From Our Readers

### Also Against House Bill 800

In your recent editorial, "Politics Vs. Free Inquiry," you stated that political control of state universities may seriously blight education when such issues as House Bill 800 are involved.

Assuming the above is true, it is time the public protested and protested vigorously.

House Bill 800 proposes that all people with suspect affiliations (Communists, all who advocate overthrow of the government, and those who have taken the Fifth Amendment) be prohibited from speaking on state university campuses.

I am opposed to this bill for the following reasons.

It is a serious threat to the First Amendment, the right of free speech.

The bill is an insult to the intelligence of the Ohio college student. It assumes that we are not mature enough to see the fallacies of the communist system, and to critically examine them.

The introduction of this bill shows how little faith some people have in the foundation of our great nation. It seems as though some people fear that if our democracy is compared to the communist totalitarian state, the latter will come out on top. I don't think so.

provide excellent propaganda for the Communists. Our Constitution includes the right of free speech to all, yet in reality some are not given this right.

Lastly, are we to resort to the same tactics used by the Communists? Are we to become a totalitarian state in which opposing political parties are denied freedom to speak? I certainly hope not.

Linda Heston,  
170 Washington Ave.

### Complaint

With reference to your recent editorial about "Tainted Food," you insinuated that three children in one family became ill from carelessness or poor refrigeration. For your information the three children ate food at a local dive-in, the mother and father having been invited out for dinner that evening.

We believe that our local restaurants have an obligation to the public and the editorial should have been directed to them.

Mr. and Mrs. Kendall Ingram, 857 Jennings Ave.

Editor's Note: The editorial referred particularly to the danger of tainted foods on picnics and included an appeal from the City Health Commissioner that everyone keep perishable foods refrigerated in the hot summer months.

Departing Pupils

You might find Johnny's lost school tennis shoes or Mary's misplaced sweater at the Junior High School gym.

A stack of goods left behind by students the past year has been gathered from all corners of the building by custodians and is available for distribution to the owners. Principal Wayne Grinnen reported today.

The clothing and other items must be claimed by Friday. Anything left after that day will be disposed of, he said.

The list of items includes carrying cases, tennis shoes, sweater, gym bags, some complete with towels, skirts, trouser, jackets rubbers, stocking caps and other clothing reminiscent of the

hard winter, boys' eye glasses, a Samsonite overnite bag, scarves, gloves and other odds and ends.

Much of the clothing has been in the school's lost and found box for some time.

Books that apparently are personal property are also on hand. Mr. Grinnen said claimants should come to the office between 8:30 a.m. and noon or from 1 to 3:30 p.m. and be able to identify the lost item.

## Hall-Marks Wedding Is Event In Dungannon

Miss Dolores Hall, daughter of Mr. and Mrs. Jewell Hall of New Garden, and Gerald Marks, son of Mr. and Mrs. Paul Marks of Guilford Lake, exchanged nuptial vows at 10:30 a.m. Saturday in the sanctuary of St. Phillip Neri Church at Dungannon.

Rev. William Apell officiated before an altar decorated with vases of white gladioli and chrysanthemum and lighted by seven branch cathedral candelabra.

White satin bows marked the aisle down which the bride was escorted by her father who gave her in marriage. Thomas McKenna presided at the organ console.

For her wedding the bride chose a gown of white Chantilly lace and applied silk organza with Sabrina neckline and long tapered sleeves. The bouffant skirt swept to a chapel train. Her long veil of illusion was held by a crown of pearls and crystals.

Miss Judith Hall was maid of honor for her sister and wore a street length dress of mint green and flowered headpiece of tinted pompons which matched her colonial bouquet.

Bridesmaids were Mrs. Ruth Hall and Miss Marjorie Marks,

sister of the bridegroom. They wore dresses of apricot colored silk organza and carried colonial bouquets.

Mr. Marks chose his brother, Larry, to be his best man and Robert Hall, brother of the bride, and Randall Reed, cousin of the bridegroom, ushers.

For her daughter's wedding Mrs. Hall wore a gown of blue lace and Mrs. Marks a beige dress. Both wore corsages of rosebuds.

Daisies and pompons circled the base of the cake which centered the bride's table at the reception in the church social rooms following the ceremony. Classmates of the bride at the Massillon City Hospital School of Nursing, Georgia Monbarron, Darlene Rice, Ann Weinrich and Linda Duck served. Three hundred guests were registered.

Following a honeymoon to an undisclosed destination the bride will return to the School of Nursing at Massillon City Hospital where she will graduate in September, and the bridegroom to Ft. Sheridan, Ill., where he is stationed with the armed forces.

The parents of the bridegroom were hosts at the rehearsal dinner Friday evening at their home.

## Jackson-Beamer Wedding Is Sebring Church Event

Nuptial vows were exchanged in front of the flower banked fireplace of the home of the bride's aunt and uncle, Mr. and Mrs. James Hott of W. Ohio Ave., Sebring, uniting in marriage Miss Peggy Ann Jackson and David L. Beamer Monday at 7:30 p.m.

Miss Jackson is the daughter of Mr. and Mrs. George Jackson of 156 E. Indiana Ave., Sebring, and Mr. and Mrs. John L. Beamer of Rochester, Minn., are parents of the bridegroom.

White carnations and gladioli fanned across the mantel and the scene was lighted with white tapers in brass holders as the bride was escorted down a large open circling stairway into the room by her father who gave her in marriage.

The double ring ceremony was performed by Jack D. Fawley, minister of the Church of Christ at Sabina, brother-in-law of the bride.

The bride was gowned in white silk organza over taffeta with three-quarter length sleeves and high round neck. Three rolled roses graced the back of the waist of the full bouffant skirt. The dress was hand-made by the mother of the bride.

A Danish crown of crystals and pearls held her elbow length veil of silk illusion and she carried a

Mrs. David L. Beamer

colonial bouquet of white and yellow carnations and lily-of-the-valley.

Maid of honor was Miss Amee Albert who wore a yellow silk organza over taffeta street length dress with insets of satin circles at the waist. A matching Dior bow headdress and colonial bouquet of yellow carnations complemented her costume.

Tom Logan of Columbiana served Mr. Beamer as best man.

Guests were registered by Mrs. Jack Fawley at the reception.

For an undisclosed honeymoon the bride wore a navy blue sheath dress.

The couple will spend the summer at Rochester, Minn., returning to Ohio State University in September.

## WCTU Plans For Patriotic Observance

The Salem Woman's Christian Temperance Union is participating in plans for the national patriotic project, "Make Freedom Ring," which will be staged at 1 p.m., Thursday, July 4, from coast to coast. Mrs. Fred J. Foose, national WCTU president, has asked that all unions cooperate in this project.

Governors of 50 states are endorsing this bell-ringing campaign and through a proclamation are calling upon their constituents to carry out this program, according to Mrs. Foose. The ringing of the bells will come as a reminder of what the day stands for — the country's Declaration of Independence.

At a recent meeting of the Salem union, Mrs. Paul Taylor, wife of the pastor of the Assembly of God Church, gave a talk on the theme, "The Hand That Holds."

Mrs. Edith L. Dean, vice president, introduced the speaker and announced the program. Rev. Constance Gough, who gave a devotional talk on the topic, "He Had No Shirt," also conducted the dedication for the White Ribbon Recruits. The White Ribbon Recruits make up the children's division of the organization. It includes children from infancy to six years.

Cyndie Roher and Nancy Grams sang two songs entitled, "I Will Sing" and "We Gaze In Wonder," with Mrs. Alvin Barton at the piano.

Mrs. Herman C. Stratton arranged the fruesta, assisted by Mrs. Dean. Guests were Mrs. Donald M. Roher, Mrs. Arthur Brown, Jr., Mrs. Frank Hoenicka, Mrs. Richard Robbins and Mrs. Sam Rea, Jr.

The Ohio School of Alcohol Studies is scheduled for June 24-27 at Otterbein College. The summer state workshop will be July 11 and 12 at Lakeside.

The Salem union will hold its annual picnic meeting Tuesday, July 9 at 12:30 p.m. in Centennial Park.

# Hints from Heloise

— By Heloise Cruse —

DEAR HELOISE: Would you please tell me how to remove this yellow from my diapers? It is on all of our clothing. I am ashamed to hang my laundry out where the neighbors can see it. It seems the more bleach I use, the worse they get.

I am enclosing a sample for you to see.

C.H. DEAR C.H.: I have forwarded your sample diaper and letter to a home service director of a washer manufacturing company named Ann Olson. Here's her answer:

DEAR HELOISE: The yellow color in the diaper is iron rust; we quickly removed this rust stain by dipping the diaper in a solution of one tablespoon of oxalic acid crystals to one gallon of HOT water. Obtain this at a drug store, MARK IT POISON, and KEEP AWAY FROM CHILDREN.

Sometimes garments will have to be soaked for as long as 10 minutes.

Then, rinse them in water to which sodium bicarbonate has been added. Use this in a plastic pail and then wash diapers through the complete diaper wash procedure being careful to use very hot water, being sure to add a non-precipitating water conditioner first.

The rinsing in soda and the washing prevents re-crystallization which could be harmful to the fabric if dried in the garment. These crystals are acid and

MUST NOT BE USED in a washer, a porcelain sink or bathtub. A glass container or a plastic dishpan might be the most readily available container.

USE RUBBER GLOVES when working with this.

We suggest that the source of the rust be corrected. However, if existing conditions must remain, use a detergent, NOT A SOAP in the wash, with the addition of a non-precipitating water conditioner in the rise. These aids should be put in the water first (to hold the iron in suspension) before adding the chlorine.

Chlorine bleach makes the condition worse because the iron is oxidized by the chlorine. For those who must use bleach .. mix a non-precipitating water conditioner with some water first and then add your diluted bleach.

Also, when using bleach add the water conditioner to the wash water as well as the rinse. Both detergent and the water conditioner help to tie up the iron to the water. Soap will not do this.

If diapers are kept in a chlorine solution (a good practice) in a diaper pail before washing, add a non-precipitating water conditioner to the water first to hold the iron rust in suspension.

ANN OLSON.

P. S.: And Mothers, please don't send me diapers and

clothing. We just cannot return these things. One day this week, a woman sent a two-inch dead roach! I don't like 'em. Dead or alive.

HELOISE. DEAR HELOISE: I do not have much storage space so I store my extra blankets between my mattress and box springs. I use blouse hangers for my daughter's dresses and can get six on one hanger this way. Skirt hangers can be used for shorts and slacks as well as skirts. We can get twelve of these on one hanger.

COLLENE.

Mr. and Mrs. Edward Brellock of New Brighton, Pa., visited Tuesday in the home of Mr. and Mrs. Fred Horstman of Fair Ave. Mr. Horstman returned home Saturday after being a surgical patient in Salem City Hospital.

HELOISE. My family used to complain that the whites of my poached and fried eggs were tough.

A friend told me I would not have this trouble if I would remove the eggs from the refrigerator the night before using them so that they would be room temperature — I found this to be true!

HUTCHINSON. Yes, sir, we tried this too. But doggone, if I could figure out why.

HELOISE.

DEAR HELOISE: If you keep a generous amount of ice cream in your freezer, from which you serve your family over a period of a week or longer, wrap the container completely in foil. This

will prevent the ice cream from becoming icy and also protects its flavor. Rewrap the container tightly each time after it has been opened.

ELEANOR LYNCH.

(Heloise welcomes all mail, especially household hints which she can pass on to readers as space permits. However, because of the tremendous volume of mail she receives daily, Heloise is unable to answer all individual letters. She will answer readers' questions in her column whenever possible.

506 E. STATE G. C. MURPHY CO. SALEM, OHIO

Finance Director Richard Krabach, at Gov. James A. Rhodes' direction, ordered offices kept open and staffed on the Feb. 12 and Feb. 22 holidays without extra pay.

After lower courts held that Krabach's order was illegal, state officials asked employees to work voluntarily because of the state's tight financial situation. Many of them did.

In other actions, the Supreme Court refused to review an appellate court reversal of a divorce granted to U. S. Rep. Thomas L. Ashley, D-Ohio. The appellate court reversed on grounds the divorce was against the weight of evidence.

Ashley sued on grounds of gross neglect and adultery, claiming he was "black jacked" into marrying Margaret Mary Ashley on Aug. 9, 1956 with the help of her sister, Mrs. Eileen England.

A child was born to Mrs. Ashley Nov. 24, 1956, and municipal court in Washington, D. C. ruled, over his denial, that he was the father for purposes of child support. A second child was born in May 1960 while the divorce suit was pending records showed.

The court affirmed dismissal in lower courts in Warren County of a suit in which an employer sought to recover \$27,515 for a workmen's compensation premium it was ordered to pay after the accidental death of an employee.

Fischer Construction Co. of Cincinnati filed the suit against William Stroud of New Burlington, whose truck hit and killed William Martin Jr., a flagman on a Fischer construction job near Waynesville Aug. 10, 1959.

In another action, the Supreme Court refused to reconsider its decision of May 8 holding Ohio's fair trade laws constitutional. The refusal upheld an appellate court finding in a declaratory judgment action brought by Hudson Distributor in Cuyahoga County, against Uphorn Co. and Eli Lilly Co., drug manufacturers.

The Supreme Court, in other actions: Refused to review Lorain County decisions ordering the western portion of Edgewater Boulevard, Vermilion - on - the-Lake, vacated at the request of A. H. West. West filed his petition in 1960. The village was annexed to Vermilion last Jan. 1.

Rejected the appeal of Arthur S. Jones, owner of the Seven Hills Farm in Lawrence County, from a \$7,481 award to J. W. Preston as his share in operation of the farm. Jones claimed that Preston entered into a partnership to operate the farm for five years but quit after about 11 months. Lower courts held it was a partnership.

Declined to review Scioto County decisions favoring William Justice, used car dealer, in a suit by Creed Bates Jr., claiming malicious prosecution. The suit stemmed from the arrest of Bates following default of a note for purchase of a truck. The case was dismissed and Bates sued Justice. Affirmed an award of \$3,700 to Mr. and Mrs. Merle Peterson, Rt. 2, Mansfield, and \$7,814 to Ohio Farmers Insurance from a total of \$11,514 recovered from a third party who caused a fire at the Peterson home May 19, 1959.

The Petersons suffered a fire loss of \$17,904, of which Farmers Insurance paid \$7,814. A dispute arose over decision of the sum recovered in a joint suit against the third party unidentified here.

#### FICTION

**BLACK SUMMER** by Nancy Hale. A seven-year-old boy from Virginia is brought to New England to spend the summer because of his mother's illness. Everything is strange to him and he is indeed strange to them. He tries desperately to get sent home, but all his plans fail. Miss Hale's wit is both sparkling and sharp, the story is worth reading.

**A BURIED LAND** by Madison Jones. With the area of Tennessee affected by the T.V.A. as a background, the author tells a story of two men, each of whom represents a different way of life. One wants the valley to progress, the other wants to keep to the old ways, but a murder is at the heart of the whole difficulty.

**INSIDE DAISY CLOVER** by Gavin Lambert. A teen-age girl who has come from a trailer camp to stardom as a pop singer

tells her own story in her own breezy way.

**BOYS AND GIRLS TOGETHER** by William Saroyan. This is very different from the early books by Saroyan. He still can depict character and mood as well as ever, but the people he chooses to depict in this novel are almost totally without a sense of value. Perhaps he feels that they are typical of a growing number of our young people, but we ought to hope that he is wrong.

**A LIKENESS TO VOICES** by Mary Savage. When Stanley Withers loses the third job in five years, his wife decides it is time she did something about it. But what she does is, to say the least, unorthodox. For she and their cat Rasputin are both more than ordinarily endowed with what we moderns call E.S.P. (extrasensory perception).

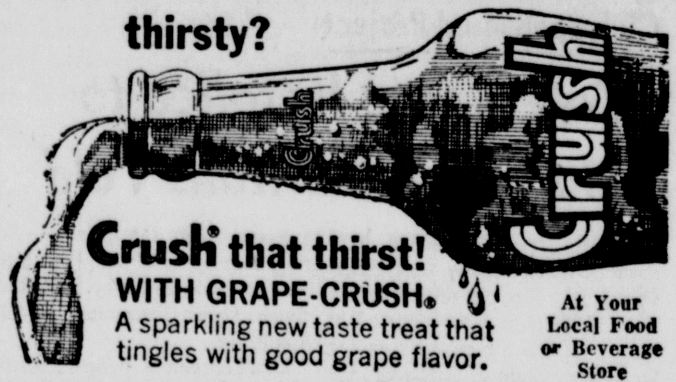

**STACY TOWER** by Robert H. K. Walter. A long and varied novel about a large university in a

western state. Its characters come from all classes on the campus, students, faculty, families. Its excursions go into all sorts of activities, classes, offices, libraries, laboratories, jails and hospitals.

of a five story men's dormitory. Aided by the discovery of the murder weapon—a 30.06 Enfield rifle — police pressed their hunt for the ambush slayer.

Mrs. Evers told a mourning crowd of 700 Negroes Wednesday she was determined the death of her husband would not be in vain.

Men wept unashamedly. Teenagers bit their lips and stared ahead with unblinking eyes.

"I come here tonight with a broken heart," said the 30-year-old widow, "but I come because I feel it is my duty."

"I come to make a plea. No one knows like I know how my husband gave his life for this cause before he was killed. He lived with it 24 hours a day."

She said he talked of death the day before his assassination "and said if he had to go he would rather it would be this way."

When she finished, the audience silently rose. There were no "freedom songs," no cheers, none of the exuberance that marks other mass integration rallies.

Instead, their voices pealed "My Country 'Tis of Thee, Sweet Land of Liberty."

Funeral arrangements were in complete for Evers, who left three children—the oldest 10.

The Rev. Martin Luther King Jr., speaking at a New York meeting, called the slaying "an inexpressible tragedy and an unspeakable outrage."

Later, King said he will attend the funeral.

Rewards totaling \$24,350 were posted for information leading to the arrest and conviction of Evers' slayer.

## Alabama U.

(Continued from Page One)

"Due to this illegal and unwarranted military occupation, I will not be present on the Huntsville campus. . . . However, we will continue relentlessly our fight against forced integration of the University of Alabama."

With about 1,200 Alabama guardsmen on duty at Tuscaloosa, the segregationist governor wired Kennedy that state police were being withdrawn.

Peace and order were maintained, Wallace said, by his own men.

ing too much time to enact an anti-terrorist emergency measure he proposed last week. The bill specifies 30-year prison terms for terrorists convicted of burning factories, one of their prime targets in a campaign stepped up since the Cuban crisis last fall.

Communist and MIF members in the Senate and Chamber of Deputies have parliamentary immunity to Betancourt's arrest order.

(Continued from Page One)

The pressure reportedly came from the governor's office because it will give the state's general fund a \$10-million cushion.

The House completed legislative action on a bill permitting city councils or boards of county commissioners to appoint boards of trustees of ranch state universities.

In the midst of other business, the Senate received and confirmed the appointment of George E. Wilson of Akron as director of the new state Department of Development, designed to attract the industry which is designed to provide 200,000 new jobs for Ohioans.

## Center Township Road Oiling Begun

Joseph D. Woodson, 36, of 1019 Court Ave., S.E., Canton; William Eddings, 35, of 107 E. Jefferson St., Pittsburgh; Ronald E. Johnson, 23, of 820 Cherry Ave., S.E., Canton; Robert Miller, 28, of 1005 Read St., Alliance.

One of the quartet, Eddings, eluded the law enforcement officers for a brief time but was caught by the State Highway Patrol in Damascus, to where he had hitch-hiked a ride.

Although each of the police officers and members of the sheriff's department in the stakeout was equipped with a sidearm or a machine gun, Chief Lutsch directed that firing be withheld when Eddings made his dash for freedom.

Police said this decision was made because of the numerous family dwellings in the immediate area and traffic on S. Lincoln Ave.

Chief Lutsch said Wednesday that he suspects a fifth man was involved in the breaking and entering.

The captured four are uncommunicative. In jail for more than 36 hours, they have received no visitors nor has any of them requested permission to call anyone.

various offices. It was pointed out that tolls for all personal calls were paid for by the individuals making the calls.

Though some question was raised as to the amount of the toll calls the majority present felt the amount was in line with the demands of the school system. It was pointed out further that with sufficient facilities in a central office a telephone exchange system could be established which would minimize the cost of operation.

The purchasing policy of the schools was also discussed. It was pointed out by Supt. Smith that the school policy was similar to other schools throughout the state and conformed to state regulations. Fadely explained the buying procedure and stated that local firms were given preference whenever possible.

Mrs. Rachel Pandolph, director of cafeterias and Fadely answered questions concerning operation of the cafeterias. It was pointed out that an average of 800 meals are served daily and that for the past two years the cafeteria has been operating in the black.

Questions from the floor as to certain purchasing procedures in the past were referred to the Board of Education for answer. Another question from the floor relative to the employment of certain custodial personnel was explained by Fadely.

## West Point Firemen To Sponsor Dance

WEST POINT — West Point Volunteer firemen decided to sponsor a dance at their fire hall June 29, with the Variety Aces furnishing the music, when they met Wednesday.

Sixteen members attended their training session at 6:30 p.m., followed by the business meeting. Jack Pozenel, president, presided.

## PUT OUT MINOR FIRE

LISBON — A fire at 1:35 p.m. Wednesday in a storage shed at the rear of Brandau Plumbing and Heating Co., 135 S. Market St., caused minor damage, according to village firemen.

Someone threw a lighted cigarette on wood stacked along the side of the 15 by 25-foot building and it caught fire, scorching the large beams and siding.

The firm stores plumbing fixtures and roof cement in the building.

In the Virgin Islands the year-round temperature averages 78 degrees, with only six degrees variance between winter and summer.

## Supermarket Specials Make For Big Father's Day Feed

By The Associated Press  
Supermarket specials make it easy to stage a big father's day feed this Sunday.

Beef prices continue to ride close to the lowest levels in years. Fresh pork prices have risen a bit, but such cured varieties as hams are still offered at low prices. And bargains abound in fryers and turkeys.

In addition, there's a wide range of fresh vegetable offerings, and some treats like watermelon are at or near seasonal lows.

At beef counters, one national chain is selling rib roasts at 53 cents a pound in its New York outlets — the lowest price the chain has charged since the fall of 1961.

Other beef features include round roasts, hamburger and pot roasts.

Smoked hams are offered in the Northeast by one chain at a range from 29 cents a pound for shank ends to 49 cents for the whole ham. Picnic hams and smoked butts are featured in the Midwest and Southeast. On the West Coast however, smoked hams have begun following fresh prices upward, with some items showing a rise of 3 to 4 cents a pound.

Fryer chickens have held steady at about 30-35 cents a pound in most markets, making them very economical fare. In the Midwest, prices have slipped downward recently.

The vegetable selection broadens steadily with the influx of local produce and the seasonal army of roadside sellers is moving northward.

Among the items featured regionally are asparagus, yellow squash, artichokes, okra, black-eyed peas, snap beans, peppers and spinach.

There are good supplies of carrots, cauliflower, celery, cucumbers, radishes, potatoes and tomatoes.

Watermelon supplies are building toward a climax as Florida output overlaps the coming production from Texas, Alabama and Georgia. The outlook is for a crop even bigger than last year's.

Cantaloupes, bananas, peaches, strawberries and regional plums, apricots and cherries are among the best buys in fruits.

# Television Season Very Unexciting

By CYNTHIA LOWRY  
AP Television-Radio Writer

NEW YORK (AP)—Television's evening programs on the network this past season cost close to \$800 million, counting production and time.

Now, at season's end, it is fair to ask what kind of television year it has been. The answer, underscored by the recent Emmy awards, is unexciting.

At any rate, television's most memorable moments during the past season, as far as this viewer is concerned, came in the documentary and news areas.

"The Tunnel," which picked up the "program of the year" Emmy was a thoroughly gripping program, full of real suspense even if we did know at the outset that many people were to escape to freedom in the West through the escape passage dug under the Berlin wall.

But "The Kremlin," broadcast too late to qualify for this season's honors lists, is my candidate for television's finest hour of the year.

The cream of the entertainment shows were ones which, for a second year, took pains with scripts and performances. "The Defenders" had a point to make most weeks and made it in valid dramatic terms. "The Dick Van Dyke Show" was not only funny, but witty and charming.

It was a sorry year for original drama. The carefully produced "Hall of Fame" specials lacked zing. With a couple of outstanding exceptions — "The Outpost," an off-beat morality play, and "Big Deal in Laredo," a really amusing comedy — the Sunday night "Show of the Week" dramas were disappointing.

The variety shows had a tendency to look and sound alike particularly because they all seemed to be using the same list of guest stars. Exceptions were "The Garry Moore Show," usually bright and fresh, and "The

Andy Williams Show," handsomely mounted and in excellent taste. The Ed Sullivan Show, dean of the category, showed signs of age — or maybe some of us are getting tired of the format.

Recommended tonight: "McHale's Navy," ABC, 9:30-10 EDT—a new adventure of the members of television's kookiest crew.

Davalillo Lost For Month As Tribe Romps 12-6

Indians Post 6th Straight

Rookie's Arm Broken When Hit By Pitch

DETROIT (AP) — The surging Cleveland Indians are wondering how well they can get along without their outstanding rookie, Vic Davalillo for at least a month. The sensational 23-year-old Venezuelan suffered a broken arm in Wednesday night's game with Detroit when struck by a pitch in the first inning. The Indians came from behind twice to whip the Tigers 12-6 despite three early home runs by Detroit. It was Cleveland's sixth straight victory and ninth in 10 games. The thought of seeing Davalillo on the sidelines with the Tribe now in its longest winning streak of the season probably made manager Birdie Tebbetts and other top club officials shudder. Davalillo was batting .304-10th in the American League—when he entered the game. X-rays at a Detroit hospital disclosed that Davalillo suffered a fracture of the large bone in his right forearm. He bats left and throws left. The Indians rallied and overcame a 6-3 deficit with nine runs in the sixth, seventh and eighth innings. Cleveland batters had 14 hits off five Tiger pitchers, including homers by Joe Adcock and Joe Azcue. Detroit's Al Kaline, Jake Wood and Dick McAuliffe belted homers off starter Dick Donovan, who allowed eight hits and five runs in five innings. The triumph went to reliever Jerry Walker, who picked up his fourth victory in five decisions.

Former Yank's Star Turley Boosts New York To Top Spot As Angels Win

By MIKE RATHET Associate Press Sports Writer Los Angeles' Bob Turley gave his former club, the New York Yankees, a boost into the American League's top spot Wednesday night with a one hit 5-0 victory over the White Sox. That gave the Angels a split of a two-night doubleheader—Chicago's John Buzhardt hurled a three-hit 3-1 first game triumph—and dropped the White Sox .001 points behind New York. The Yankees reached the top rung with a 3-2, 10-inning triumph over sagging Baltimore.

Meanwhile, Cleveland's Indians rolled to their sixth consecutive victory with a costly 12-6 triumph over Detroit in which they lost outstanding rookie outfielder Vic Davalillo for at least four weeks with a broken right forearm. Boston Power Downs Senators In other games, Boston used the home run punch to down Washington 5-3 and Kansas City and Minnesota played ricochet in splitting a doubleheader. The A's pounded 17 hits for a 12-4 victory, then the Twins lashed 13 for an 8-1 triumph. The Los Angeles Dodgers re-

gained the National League lead by belting Houston 9-1. San Francisco clipped Chicago's Cubs 3-1. Philadelphia knocked off St. Louis 6-2. Cincinnati shut out Pittsburgh 3-0 and Milwaukee thumped the New York Mets 9-0. Turley posted the 100th victory of his 12-year major league career. He struck out seven and walked four in bringing his record to 2-5. Leon Wagner helped him by going 4-for-4, including his 15th home run. Buzhardt, 7-2, fell behind 1-0 in the second inning of the opener but went on to retire the Angels

in order until the eighth. By then the White Sox had pulled ahead. Orioles Lose 11 of 13 The Yankees tied it in the eighth on Tom Tresh's double and Joe Pepitone's single, then won in the 10th when Brooks Robinson opened the door by mugging Bobby Richardson's grounder. Richardson moved around to score the clincher on a sacrifice, a walk and Roger Maris' single. It was the Orioles' fifth straight loss and their 11th in 13 games. Davalillo was hit by a Hank Aguirre pitch in the first inning and was replaced by Jerry Kindall, who started the Indians' winning three-run rally in the seventh inning with a double. A walk, two passed balls and singles by Joe Adcock and Willie Kirkland did the rest of the damage. The Tigers had built an early lead on homers by Al Kaline, Mike Wood and Dick McAuliffe. The Red Sox scored all their runs on a three-run homer by Ed Bressoud, and solo shots by Carl Yastrzemski and Dick Stuart while Billy Monbouquette, 8-4, scattered eight Senators' hits. Jim King homered for Washington.

Player Is Irked At Dollar Emphasis In Bigtime Golf

By WILL GRIMSLEY Associated Press Sports Writer HARRISON, N.Y. (AP) — Gary Player, one of the top favorites in the \$100,000 Thunderbird Classic starting today, says too much importance is put on the dollar mark and not enough on the scorecard in bigtime golf. "It's getting so players are judged not by how many tournaments they win or how well they play, but how much official money they collect," the articulate little South African said. "It is an unfair and inaccurate gauge. 'Who only true gauge of a player's ability is the scoring average. The man who plays consistently the best golf under a variety of

conditions on a variety of courses should be ranked No. 1.' Player, one of the game's current Big Three which also includes Arnold Palmer and Jack Nicklaus, tees off in the first round of the Thunderbird tournament over the 6,550-yard, par-70, Westchester Country Club course. He is paired with Palmer. Nicklaus, the 23-year-old Masters and U.S. Open champion, goes off later with Bob Rosburg and Paul Runyan. They are the big names in the 138-man field, which includes a trio of red-hot menaces in Julius Boros, winner of the Buick Open last weekend; Tony Lema, who has been dogging the footsteps of

Blancett Captures Pre-Seniors Event

By FRITZ HOWELL  
Associated Press Sports Writer  
ZANESVILLE, Ohio (AP) — After years of trying, 40-year-old Don Blancett of Zanesville has won a state golf championship. He parlayed his ability to play in a high wind, his knowledge of Zanesville Country Club's 6,724 yards of exacting terrain, and a mistake or two by his closest challengers Wednesday into the eighth annual pre-senior title. Barely eligible for the 40-54 age bracket 36 hole test, Blancett hit the peak in his first try with a score of 151 or seven over par. Many times Blancett, president of the White Transportation Co. of Zanesville, had tried and failed in the state amateur. His lone title of any note was the Columbus District Open a dozen years ago. But on his home layout he was

unbeatable as he came from two strokes off the pace in the final round to take it all. At the end of 15 holes in the second round, Blancett was a stroke behind Steve Pipoly of Youngstown, the defending titleholder, and tied with Dr. John Lorms of Tipp City, who led the field of 160 through the first round with 74. While Blancett had no trouble on the last three holes, both rivals hit snags. Pipoly, on the 410 yard 16th, belted his tee shot out of bounds for a two-shot penalty—and that mistake cost him the tourney. Lorms, needing three pars to tie or one birdie to win, three-putted the last three greens to wind up three strokes back. Pipoly finished with 152, Lorms 154, and Steve Jupinko of Columbus next with 155. Jack Hemmer of Newark had the high score as he tacked together 115 and 110 for 225—or 81 over par for the 36 holes. In the 40-44 age bracket Lorms won the low gross trophy with 154, and William Harrellson of Troy the low net with 144. Pipoly's 152 was good for the 45-49 year prize, with the handicap going to Cy Schaffner of Columbus with 147. Robert Ross of Springfield led the 50-54 oldsters with 157, and the division's handicap trophy went to Troy's Dr. R. A. Reich with 144.

Sternberger Grabs Event At Vandalia

VANDALIA, Ohio (AP) — The little fellows had a chance to claim some of the laurels today in class competition of the 77th annual Ohio trapshoot championships. The record field of 277 marksmen, who turned out Wednesday for preliminary events, was divided according to ability as established by averages figured over past years. The class championships were to be decided by 200 targets at 16 yards. In the preliminary firing, left-handed Johnny Sternberger of Trotwood led by breaking 97 of 100 windblown targets at 16 yards and cracking 91 of 100 from the maximum 27 yards in the handicap. Sternberger's combined score was 188 of 200. Finishing one target back was Leonard Peterson of Chesterland, Ohio, who broke 97 in the 16 yard race and 90 at handicaps.

Cincy Blanks Bucs 3-0; O'Toole Posts 11th

By JIM HACKLEMAN  
Associated Press Sports Writer  
Jim O'Toole, Cincinnati's prize southpaw, fired a three hit 3-0 win over Pittsburgh Wednesday night for his 11th triumph. It was the 26-year-old left-hander's second shutout in a row and fifth of the season—and it gave Cincinnati a vital boost in the National League race. The Reds are in fifth place, but only 2 1/2 games off the pace. The Los Angeles Dodgers regained a slender lead with a 9-1 rout of Houston that put them .002

points ahead of San Francisco and St. Louis. The Giants beat fourth-place Chicago 3-1 on Willie McCovey's two homers and Bob Bolin's strong pitching, while Philadelphia knocked the Cardinals out of first, 6-2. Burdette Throws 3-Hitter  
Lew Burdette, Milwaukee's expendable right-hander, threw a three-hitter and Hank Aaron slugged in five runs in the Braves' 9-0 romp against the New York Mets. O'Toole, showing a current record of 11-3 and a earned run aver-

age of 2.07 did not allow a walk. Frank Robinson keyed the Reds' decisive two-run fourth inning by doubling in Vada Pinson, stealing third and scoring on a force play. Maury Wills continued his spectacular batting for the Dodgers, rapping out three singles and a double against the Colts for 16 hits in his last 23 tries. Lefty Johnny Podres was tagged for 10 Colt hits but struck out nine and did not allow a walk. McCovey whacked his homers off Bob Buhl, with one on in the first inning and none on in the

third. Bolin, ace reliever turned starter, limited the Cubs to four hits and struck out 14. The Phils had three-run innings off Cardinals starter Ron Taylor and veteran reliever Bobby Shantz. Burdette, 36-year-old Brave right-hander who is on the trading block, gave the punchless Mets only three singles for his sixth victory. Aaron warmed up with a two-run single in the third inning that opened the scoring, then belted his 18th homer with two aboard in the fourth. Galen Cisco, 3-6 was the loser.

Major League Stars

By The Associated Press  
PITCHING—Bob Turley, Angels, allowed only one hit and recorded the 100th victory of his major league career by blanking Chicago 5-0 in the second game of a two-nighter and dropping the White Sox out of the American League lead. BATTING — Hank Aaron, Braves, drove in five runs with a two run single and 18th homer in 9-0 walloping of New York Mets.

# The Doctor Says

By Dr. WAYNE G. BRANDSTADT

## Foot Care For Child Important

All babies are flat-footed at birth. The surest way to keep them this way is to put their feet in shoes too early.

Unless there is a special reason for him to wear corrective shoes, most doctors advise that the baby should wear no shoes, booties or socks until he starts to walk.

Dr. Brandstadt Even then, he is better off without anything on his feet if the weather is warm. Walking barefoot has the advantage of strengthening the foot muscles and developing the natural arches of the feet, especially if the child is allowed to walk on uneven ground. Care must be taken to see that there are no nails, broken glass, or other sharp objects where the baby is walking.

THE FOOT AILMENTS of children may be congenital, due to such diseases as polio and rheumatic fever. By far the commonest of these are those due to neglect (failure to get sufficient exercise and wearing ill-fitting shoes and stockings).

In order to insure good foot development, you must avoid restricting your baby's foot movements. When he is in bed, don't cover his feet with heavy or tightly tucked-in blankets. Your baby's first shoes must have soles that are flexible enough to allow him to walk on tiptoes.

# 'Orderly' Mess

By HAL BOYLE

NEW YORK (AP)—One of life's little ordeals to the disorderly is trying to sustain their own sense of order.

As a man with a chronic reputation for being disorderly in the arrangement of his belongings, I will go further than saying this is a little ordeal in living. It is a

major problem. I regard myself as a person with an immaculate sense of order. But, as is true of many a man or woman with the same idiosyncrasy, I make order in my own way.

Instead of wasting my time and energy as so-called neat people do by confining the paper wealth that comes my way in the A-B-C

confusion of file cabinets, I pile it up layer by layer on my desk.

If letters, books, or packages arrive on a day when I don't feel like opening mail, I stack them on top of the debris I live by—and wait until a sense of adventure does impel me to do so.

Paper by paper, envelope by envelope, layer by layer, such a person knows by memory the uncharted labyrinth on his desk that the rest of the unfeeling world regards as an aimless clutter.

Blindfolded, he can reach a sensitive hand within the mass and pluck out what he needs at any moment.

He can, that is, if he is left alone. But he is not left alone. The bane of the so-called disorderly person in this world is the curiosity of the so-called neat person.

I am convinced by long office association with so-called neat people that they live starved lives. After stashing away under

the A-B-C technique what the mailman brings them, they have a feeling of something missing in their living.

So they are irresistibly drawn to the laden desks of the so-called disorderly. It serves as a magnet to their insecurity.

They pick up and read letters at random, open packages not addressed to them, overturn the considered layers that have real meaning only to the owner, and make a real chaos out of what is a planned confusion.

What do they seek? What do they hope to find? They don't really know—and I don't either.

Several times I have put atop the hoarded junk pile upon my desk a simple note saying:

"Whatever you are looking for in this world that will make your life better, it probably isn't here. Why don't you look under 'H'—for happiness—in your own files?"

The irate notes do no good. Whenever I reach with a sure hand for what I want in the mess on my desk, I find some meddlesome passer-by has overturned the pile and made a real mess of it.

Well, I suppose there is no real use in fighting it. One of the inescapable duties of the so-called disorderly people is to teach the so-called neat people of this world that life can never be completely pigeon-holed.

'GUESS WHO' BONNET — Underneath this oddball hat with superimposed eyebrows and glasses is actress Hayley Mills. She wears it in a movie, "The Chalk Garden," now being filmed in England.

DRIVER PLUS ONE—Down in Paris, Miss., the J. E. Harmons do all their traveling on this tractor built for two. The elderly couple claims this is the only way for them to travel since neither can operate an automobile. Harmon, an 84-year-old retired farmer-teacher, takes the back seat while his wife does all the driving.
